PROFILE

Economist graduated from the Federal University of Rio de Janeiro (UFRJ) and Wealth & Investment Advisor accredited by ANCORD under CVM Resolution 178. As a partner at Meta Investimentos, he works on asset allocation, quantitative risk modeling, and regulatory compliance, serving clients nationwide with a regional presence in Região dos Lagos/RJ (Araruama and Rio das Ostras). He holds an MBA in Data Science and Analytics from USP/ESALQ and is a Master's candidate in Production Engineering and Computational Systems at Fluminense Federal University (UFF/MESC), where he researches Operations Research and Combinatorial Optimization applied to statistical arbitrage and portfolio selection on B3. His prior background spans qualitative and quantitative market research, public opinion analysis, and analytics engineering, including the technical design of the FieldCopilot platform.

EDUCATION

Professional Master's in Production Engineering & Computational Systems, Universidade Federal Fluminense (UFF)
2026 - Present

Relevant Focus: Operations Research, Combinatorial Optimization (MIQP/MILP), Simulation & Quant Finance | Advisor: Prof. Dr. Dalessandro Soares Vianna

MBA in Data Science & Analytics, Universidade de São Paulo (USP / ESALQ) 2024 - 2026

Relevant Focus: Data Science, Machine Learning, Artificial Intelligence, Deep Learning, Time Series, Big Data

Bachelor of Science in Economics, Universidade Federal do Rio de Janeiro (UFRJ) 2010 - 2019

Relevant Focus: Econometrics, Statistics, Macroeconomics, Microeconomics, Financial Markets, Quantitative Finance

EXPERIENCE

Investment Advisor & Partner Jun 2020 - Present
Meta Investimentos Agente Autônomo de Investimentos Ltda *Rio de Janeiro*

- Supervised internal controls, compliance workflows, and regulatory governance under CVM (Resolutions 16 and 178), ANBIMA, and Central Bank rules.
- Built econometric and time series models in Python and R to project portfolio risk (VaR, Drawdown) and expected returns.
- Advised high-net-worth individuals and corporate clients on wealth management, custom asset allocation, tax optimization, and succession planning.

Market Research & Intelligence Analyst Apr 2025 - Aug 2026
Ágora Pesquisa (NKIN Consultoria e Marketing) *Araruama, RJ, Brasil*

- Conducted market research and electoral studies (focus groups, in-depth interviews, and surveys), from data analysis to client presentations.
- Restructured focus group recruitment and survey collection workflows (Likert matrices and send windows) to increase operational profit margin by 65%.
- Automated survey collection and tabulation via Meta API (WhatsApp) and Typebot for 28,000+ respondents (92.3% automated), with a 90% reduction in manual effort.

Backoffice Manager & Investment Advisor (Partner) Aug 2017 - May 2020
Meta & Actio Agente Autônomo de Investimentos *Rio de Janeiro, RJ, Brasil*

- Built automated financial and estate planning tools in Excel and VBA that delivered over 20% in tax savings and a 100% increase in insurance policies.
- Built and deployed the LongandShortR algorithm in R for statistical arbitrage via cointegration on B3, with 100+ monthly trading opportunities identified.
- Established the backoffice department, with new operating manuals, custody reconciliation routines, trade settlement workflows, and team training.

SKILLS & CERTIFICATIONS

Programming & Data	Python (Pandas, Polars, Scikit-Learn, Statsmodels), R (Tidyverse, Ggplot2, Urca), SQL (PostgreSQL, SQLite), LaTeX, Git, Shell Scripting
Operations Research	Combinatorial Optimization (MIQP, MILP), Coherent Risk Measures (CVaR), Statistical Arbitrage (Pair Trading / Cointegration), Time Series
Research & BI	Qual-Quant Research (Surveys, Focus Groups, IDIs), Power BI (DAX, Star Schema), Looker Studio, Excel/VBA
Finance & Compliance	Autonomous Investment Agent (ANCORD), Banking Correspondent (FEBRABAN FBB100 active to 2027), CVM/ANBIMA/BACEN Regulations
Languages	Portuguese (Native), English (C2 Proficient - EF SET Score 79/100)
Certifications	DataCamp Certified Data Analyst, Google Data Analytics, Investments Risk Management, ANCORD, FEBRABAN FBB100

RESEARCH & APPLIED PROJECTS

FieldCopilot: Field Research Logistics, Routing & Spatial Quota Engine 2025 - 2026
Instituto de Pesquisa de Opinião e Inteligência de Mercado *FastAPI, Python, React 18, TypeScript, Leaflet, GeoParquet, Uber H3, PostgreSQL, Docker, OR-Tools*

- Field logistics engine and spatial analytics platform engineered to automate sampling planning, team routing, and quota compliance for public opinion and market surveys. Integrates spatially constrained regionalization (n >= m), geodesic TSP 2-Opt routing, GeoParquet/H3 census tract ingestion, and real-time field productivity auditing.
- *Authorized sanitized specification. Source code and transactional databases proprietary.*

PerGo: Open-Source Omnichannel CPaaS Platform in Go & NATS JetStream 2025 - Present
Projeto Autônomo / Open Source *Go, Echo v5, NATS JetStream, PostgreSQL, pgx/v5, a-h/templ, HTMX, Tailwind CSS, Docker, whatsmeow*

- Self-hosted, open-source Omnichannel Communications Platform as a Service (CPaaS) built in Go 1.25+ and Echo v5. Unifies message delivery across multiple providers (WhatsApp Cloud WABA, WhatsApp Web via whatsmeow, and Telegram) under a single REST payload, with NATS JetStream durable queuing, automatic backpressure, and a reactive dashboard in a-h/templ and HTMX.

agp-media: Unified Media Transcription, OCR & Qualitative NLP Toolkit 2025 - 2026
Instituto de Pesquisas Aplicadas & Inteligência de Campo *Python, OpenAI Whisper, Google STT, Gemini API, PaddleOCR, Mistral, Pydantic, FFmpeg, CLI / Typer*

- Modular command-line toolkit (CLI) built to process focus groups, in-depth interviews, and field survey data. Handles media conversion, audio transcription with multi-speaker diarization (Whisper, Gemini, Google STT), physical form OCR, and qualitative sentiment analysis into structured canonical JSON.
- *Authorized sanitized specification. Source code and transactional databases proprietary.*

LongandShortR: Statistical Arbitrage & Cointegration Engine on B3 in R 2017 - 2020
Meta & Actio Investimentos *R, Tseries, Urca, Dplyr, Ggplot2, B3 Market Data*

- Systematic quantitative algorithm coded in R for daily universe-wide Engle-Granger cointegration and Augmented Dickey-Fuller (ADF) screening on B3 equities. Scanned 100+ statistical arbitrage candidates monthly with automated half-life and z-score calculations.

Combinatorial Optimization under Cardinality Constraints and Real Market Frictions on B3 2026 - Present
UFF / MESC *Python, Gurobi, Pyomo, SciPy, R, LaTeX*

- Professional master's thesis formulating exact Mixed-Integer Quadratic Programming (MIQP) and Mixed-Integer Linear Programming (MILP) models with linearized Conditional Value-at-Risk (CVaR). Models dynamic allocation of statistical arbitrage equity portfolios on B3 with transaction costs, borrowing fees, and cardinality constraints.
