PROFILE

Economist graduated from the Federal University of Rio de Janeiro (UFRJ) with an MBA in Data Science and Analytics from USP/ESALQ (thesis graded 10/10). Currently a graduate student in the Professional Master's Program in Production Engineering and Computational Systems at Fluminense Federal University (UFF/MESC), conducting research in Operations Research and Combinatorial Optimization applied to dynamic statistical arbitrage on B3 under the supervision of Prof. Dr. Dalessandro Soares Vianna. Brings nearly 6 years of solid experience as a Senior Investment Advisor and Partner at Meta Investimentos, specializing in econometric modeling, portfolio risk-return optimization using Python, R, and SQL, and regulatory compliance oversight. Previously served as Data Analyst at Ágora Pesquisa (NKIN Consultoria), engineering automated ETL pipelines via Meta API and leading technical development of the analytical platform Project Aporia.

EDUCATION

Professional Master's in Production Engineering & Computational Systems, Universidade Federal Fluminense (UFF) 2026 - Present

Relevant Focus: Operations Research, Combinatorial Optimization (MIQP/MILP), Simulation & Quant Finance | Advisor: Prof. Dr. Dalessandro Soares Vianna

MBA in Data Science & Analytics, Universidade de São Paulo (USP / ESALQ) 2024 - 2026
Relevant Focus: Completed with Honors (Grade 10/10) – Data Science, Machine Learning, Artificial Intelligence, Deep Learning, Time Series, Big Data

Bachelor of Science in Economics, Universidade Federal do Rio de Janeiro (UFRJ) 2010 - 2019
Relevant Focus: Econometrics, Statistics, Macroeconomics, Microeconomics, Financial Markets, Quantitative Finance

EXPERIENCE

Senior Investment Advisor & Partner Jun 2020 - Present
Meta Investimentos Agente Autônomo de Investimentos Ltda *Rio de Janeiro*

- Conducted quantitative risk-return modeling for recommended client portfolios using Python, R, and econometric toolsets.
- Oversaw operational controls, internal compliance, and regulatory governance under CVM, ANBIMA, and Central Bank standards.
- Architected business intelligence dashboards in Power BI, Google Looker Studio, and advanced Excel for wealth management.

Data & Insights Analyst Apr 2025 - Aug 2026
Ágora Pesquisa (NKIN Consultoria e Marketing) *Araruama, RJ, Brasil*

- Engineered automated ingestion pipelines via Meta API (WhatsApp), slashing manual data processing effort by 90%.
- Modeled analytical relational databases in SQL and Python for high-throughput NPS and CSAT customer satisfaction metrics.
- Technical lead in the development and architectural definition of the proprietary platform Project Aporia.

Backoffice Manager & Investment Advisor (Partner) Aug 2017 - May 2020
Meta & Actio Agente Autônomo de Investimentos *Rio de Janeiro, RJ, Brasil*

- Conceived and implemented a proprietary statistical arbitrage algorithm in R (pair trading / cointegration) on B3 (+100 opportunities/month).
- Managed operational backoffice infrastructure and built financial planning tools that streamlined client onboarding and tax optimization.

Co-Founder & Commercial Director Jan 2014 - Nov 2018
Espaço Champs Elyseés *Rio de Janeiro*

- Commercial operations management, supplier contract renegotiation resulting in 70% payroll cost reductions, and digital presence expansion.
- Operational workflow enhancements that increased venue throughput capacity.

Digital Marketing Consultant & Webmaster Nov 2002 - Jan 2014
BX House *Rio de Janeiro, RJ, Brasil*

- Consulted on corporate web development, search engine optimization (SEO), and digital infrastructure deployment.

Marketing Consultant Intern
Ayra Consultoria (Empresa Júnior IE/UFRJ)

Jan 2012 - Aug 2012
Rio de Janeiro, RJ, Brasil

- Delivered market research studies, strategic planning assessments, and commercial lead acquisition campaigns.

Undergraduate Research Assistant
Instituto de Economia — Universidade Federal do Rio de Janeiro (IE/UFRJ)

Jun 2011 - Jul 2012
Rio de Janeiro, RJ, Brasil

- Undergraduate researcher in the Innovation Economics Group, surveying entrepreneurship determinants across the Brazilian ICT sector.
- Delivered oral presentation and co-authored scientific abstract published in the XXXIV JICTAC conference proceedings (2012).

Marketing and Communications Associate
AIESEC no Rio de Janeiro

May 2010 - Feb 2012
Rio de Janeiro, RJ, Brasil

- Promoted university exchange and international leadership development programs, managing institutional outreach campaigns.

SKILLS & CERTIFICATIONS

Programming & Data Operations Research Business Intelligence Finance & Compliance Languages Certifications	Python (Pandas, Polars, Scikit-Learn, Statsmodels), R (Tidyverse, Ggplot2, Urca), SQL (PostgreSQL, SQLite), LaTeX, Git, Shell Scripting Combinatorial Optimization (MIQP, MILP), Coherent Risk Measures (CVaR), Statistical Arbitrage (Pair Trading / Cointegration), Time Series Power BI (DAX, Star Schema), Google Looker Studio, Advanced Excel/VBA Modeling Autonomous Investment Agent (ANCORD), Banking Correspondent (FEBRABAN FBB100 active to 2027), CVM/ANBIMA/BACEN Regulations Portuguese (Native), English (C2 Proficient - EF SET Score 74/100) DataCamp Certified Data Analyst, Google Data Analytics, Investments Risk Management, ANCORD, FEBRABAN FBB100
---	--

RESEARCH & APPLIED PROJECTS

Combinatorial Optimization under Cardinality Constraints and Real Market Frictions on B3 2026 - Presente
UFF / MESC *Python, Gurobi, Pyomo, SciPy, R, LaTeX*

- Professional master's thesis developing exact Mixed-Integer Quadratic Programming (MIQP) and Mixed-Integer Linear Programming (MILP) formulations incorporating linearized Conditional Value-at-Risk (CVaR). Models dynamic allocation of statistical arbitrage equity portfolios on B3 while factoring in transaction costs, borrowing fees, and cardinality constraints.

Pair Trading with Machine Learning in the Brazilian Market (USP Thesis - Grade 10/10) 2024 - 2026
USP / ESALQ *Python, Statsmodels, Scikit-Learn, Pandas, NumPy, Matplotlib*

- MBA thesis in Data Science and Analytics evaluated with maximum honors (Grade 10/10). Implemented a rigorous empirical benchmark comparing classical Engle-Granger econometric cointegration models against supervised Machine Learning classifiers for statistical arbitrage pairs trading on B3 equities.

Project Aporia — Market & Opinion Survey Analytics Platform 2025 - 2026
Ágora Pesquisa / NKIN Consultoria *Python, SQL, PostgreSQL, Meta API, Power BI, Pandas*

- Analytics platform engineered to automate multichannel data ingestion from market surveys and public opinion polls. Transforms raw survey samples into dynamic executive dashboards and automated statistical insight summaries.
- *Authorized sanitized specification. Source code and transactional databases proprietary.*

Algorithmic Statistical Arbitrage System in R (Meta & Actio) 2017 - 2020
Meta & Actio Investimentos *R, Tseries, Urca, Dplyr, Ggplot2*

- Systematic algorithm coded in R for daily universe-wide Engle-Granger cointegration and Augmented Dickey-Fuller (ADF) screening on B3 equities. Scanned 100+ statistical arbitrage candidates monthly with automated half-life and z-score calculations.
- *Authorized sanitized specification. Source code and transactional databases proprietary.*

Financial Planning & Wealth Optimization Client Engine 2017 - Presente
Portfólio Pessoal / Meta Investimentos *Excel Avançado, VBA, Python, Google Looker Studio*

- Financial lifecycle modeling tool featuring cash flow simulations and tax drag optimization models across Brazilian investment funds and tax-exempt fixed income vehicles.

- Automated data pipeline ingesting conversational responses via Meta WhatsApp Business API for real-time NPS and CSAT calculation, achieving a 90% reduction in manual data processing overhead.
- *Authorized sanitized specification. Source code and transactional databases proprietary.*
